Update on PSI – Arctic Council's Project Support Instrument

Since the Update to Fall SAO Meeting 19-20 October, the Russian Federation Ministry of Natural Resources and Environment (MNRE) has continued to assist the Ministry of Foreign Affairs in the clarifications requests from the Prime Minister's office with respect to the summer 2010 submission of the PSI documents to the Prime Minister for a decree to enable Russia's participation in the PSI. MNRE has also shortlisted three potential organizations that could act as the Russian Executing Agency: 1) National Pollution Abatement Facility; 2) Polar Fund; and 3) Ecobezopasnost (Ecosafety).
