Operating Guidelines for AMAP Working Group

The Arctic Monitoring and Assessment Programme (AMAP) is carried out by the AMAP working group (AMAP WG) under the Arctic Council (AC) and as such operates under the Rules of Procedure that exist for the AC. These guidelines should be read in conjunction with the Rules of Procedure of the Arctic Council”.

1. The main objectives and priorities for the work of AMAP are documented in the 'AMAP Strategic Plan'; they may be supplemented by special requests from Ministers and SAOs concerning specific work items.

2. The AMAP WG comprises representatives of the Arctic States and Permanent Participants that are members of the AC. Countries and organizations that have been granted observer status to the AC are also entitled to observer status in the AMAP WG.

In addition to the provisions for Observers contained in Rules 36-38 and Annex II of the rules of Procedure for the AC, AMAP has a special category of 'Observers to the AMAP process' who shall be invited to AMAP meetings. These 'AMAP Observers' are normally countries or organizations that can directly contribute to the work of AMAP. AMAP WG shall decide to grant 'AMAP Observers' status on the basis of nominations and applications submitted to the AMAP WG prior to its meetings.

Accreditation shall apply for two years, and thereafter must be renewed by a decision of the AMAP WG. During any two-year period, 'AMAP Observer' status may be withdrawn by a decision of the AMAP WG, for observers other than those with Observer status under the AC. At least once a year, AMAP shall provide a list to the SAOs of all accredited AMAP Observers. AC Observers shall continue to be invited to AMAP meetings according to AC Rules of Procedure.

Apart from those AMAP Observers who also have AC Observer status, accreditation of 'AMAP Observer' status does not imply observer status to the AC or any of its bodies other than AMAP.

3. Each Arctic Country and Permanent Participant (as defined under the Rules of the AC) may nominate one Delegate to the AMAP WG. These Delegates may be assisted by national experts as considered appropriate.
