

Instructions for submitting Observer reports

Introduction

This document provides the reporting template and instructions for Observers required to report during the **Russian Chairmanship**.

The deadline for submission is **1 December 2022**.

According to the “[Arctic Council Rules of Procedure](#)” (Annex 2), every **two years** Observers are requested to submit to the Chairmanship up-to-date information about relevant activities and their contributions to the work of the Arctic Council. Accordingly, the following **19 Observers** from the *Fairbanks Group* are requested to submit their regular report by **1 December 2022**.¹

- Germany;
- The Netherlands;
- Poland;
- Switzerland;
- United Kingdom;
- International Union for the Conservation of Nature (IUCN);
- Nordic Council of Ministers (NCM);
- OSPAR Commission (OSPAR);
- Standing Committee of the Parliamentarians of the Arctic Regions (SCPAR);
- United Nations Economic Commission for Europe (UN-ECE);
- United Nations Environment Programme (UN Environment);
- West Nordic Council (WNC);
- World Meteorological Organization (WMO);
- Advisory Committee on the Protection of the Seas (ACOPS);
- International Arctic Science Committee (IASC);
- International Council for the Exploration of the Seas (ICES);
- International Union for Circumpolar Health (IUCH);
- Northern Forum (NF);
- Oceana;
- World Wildlife Fund for Nature – Global Arctic Program (WWF).

¹ The **Fairbanks Group** includes the Observers reviewed for the first time before the Fairbanks Ministerial meeting in 2017, as well as Observers admitted that year. This group of Observers was reviewed for a second time at the Reykjavik Ministerial meeting in 2021.

Role of Observers

The role and responsibilities of Observers, as well as criteria for admission to the Arctic Council, can be found in the “Arctic Council Rules of Procedure” (Annex 2) and the [“Observer Manual for Subsidiary Bodies.”](#)

The primary role of Observers is to observe the work of the Arctic Council. Observers contribute to the Arctic Council primarily through engagement at the level of Working Groups, Task Forces, and/or Expert Groups. Observers are invited to the meetings and other activities of the Arctic Council unless the Senior Arctic Officials decide otherwise. Observers may also propose projects through an Arctic State or a Permanent Participant.

Report submission

Observer reports should include the relevant information described below and in the template.

- (a) A description of the Observer’s contributions to the work of the Arctic Council since the time of the Observer’s most recent submission, or in the previous two years, with special focus on contributions to the subsidiary bodies through project participation and support, as well as collaboration with Permanent Participants;
- (b) If applicable, a description of the Observer’s future plans to contribute to the work of the Arctic Council, with special focus on contributions to the subsidiary bodies through project participation and support, as well as collaboration with Permanent Participants; and,
- (c) If applicable, a description of the Observer’s contributions to other aspects of the Arctic Council and its goals not covered in the previous sections since the time of the Observer’s most recent submission, or in the previous two years.

Observer reports should be submitted electronically to the **Arctic Council Secretariat** via email: acs@arctic-council.org not later than **1 December 2022**. Please bear in mind while preparing your report that all Observer reports will be published online in the *Observer* section of the [Arctic Council online Library](#) (OAR) after the 2023 Ministerial meeting.

If an Observer fails to submit a report, the Arctic Council will consider this to mean that the Observer **is no longer interested in maintaining its status** as an accredited Observer to the Arctic Council.

Cover sheet

Full name of Observer State or Observer Organization:

Nordic Environment Finance Corporation (NEFCO)

Date of submission of regular report:

28 August 2023

00100 Helsinki, Finland

Observer Report

Please describe in no more than two pages your State's or Organization's contributions to the work of the Arctic Council's Working Groups, Task Forces, and/or Expert Groups since the time of your most recent report, or in the previous two years. Please highlight contributions to specific projects, such as through proposals, concept development, in-

Nefco Background

The Nordic Environment Finance Corporation (Nefco) is an international finance institution (IFI) established in 1990 by the five Nordic countries Denmark, Finland, Iceland, Norway and Sweden. Nefco provides financing to generate positive environmental effects of interest to the Nordic region. Nefco does this by facilitating investments related to green growth and climate mitigation and adaptation globally, with particular focus on Eastern Europe, the Baltic Sea, and the Arctic and Barents regions.

Nefco's particular relevance to the Arctic Council (AC) continues partly in its unique capacity as the Fund Manager of the Arctic Council Project Support Instrument (PSI) and partly as an IFI funding environmental projects in the region. Nefco has been an observer to the Arctic Council since 2004, approved at the [Fourth AC Ministerial Meeting in Reykjavík](#) (2004).

Nefco and the Arctic Council Project Support Instrument

The [Third AC Ministerial Meeting in Inari](#) (2002) recognised the need to reinforce efforts to finance circumpolar cooperation, and the Fourth AC Ministerial Meeting in Reykjavík (2004) requested the Senior Arctic Officials (SAOs) to establish a pilot phase of an Arctic Council Project Support Instrument to focus on actions against pollution in the Arctic. The SAOs established the PSI and approved the PSI Guidelines in 2005 and appointed Nefco as the Fund Manager for the PSI in May 2005.

The PSI is a voluntary, non-exclusive mechanism for financing specific priority projects that have already been approved by the AC and can use a broad range of funding arrangements. PSI funding is available to all AC Working Groups (WG) for projects approved by the Arctic Council and that meet the PSI funding criteria.. With the deposit of the contribution of the Russian Federation and in accordance with respective Cooperation Agreements of Nefco with the PSI Contributors, NEFCO operationalised the trust fund on the 18th of July 2014.

The PSI was initially set up with a trial period of five years after becoming operational, until 18 July 2019, and this trial period was extended in 2018 to the end of 2021. At the [Twelfth AC Ministerial Meeting in Reykjavík](#) (2021), the PSI operating mandate was extended until the end of 2023.

PSI in the period January 1, 2021- August 1, 2023

The PSI saw active PSI Committee (PCOM) meetings, decisions and implementation in 2021 up until February 2022 and the Dudinka project was completed. In June 2022, Nefco decided to freeze the PSI, with no PCOM meetings and the majority of projects have been put on hold. Some project activity and disbursements have been made to wind down projects and pay for completed work. The project AFFF Phaseout of the Arctic (Phase 2) was at an advanced stage and has seen implementation to complete the project. The project Murmansk Ozone Depleting Substances (ODS) Fisheries (Phase 2) has seen activity due to pending contractual obligations.

The latter project is the biggest PSI project to date and continues active implementation of some project components as of August 2023. Nefco as fund manager has an agreement with the Moscow-based international organization 'International Centre for Scientific and Technical Information' (ICSTI) as implementing agency of the project.

kind and financial support, and hosting of meetings. Please detail any collaboration with Permanent Participants, such as project proposal endorsement and support.

PSI Financing

The PSI Contributions are summarised in Table 1 below. Approximately EUR 15.8 million have been pledged, EUR 15.5 million deposited, and most of the amount (some EUR 12.3 million) has been allocated to PSI projects. The Contributors to the PSI are Finland, Iceland, Norway, Russian Federation, Sweden, the United States, Permanent Participant Saami Council (through the Sami Parliament) and Nefco.

Table 1 – Total PSI Contributions to date

<i>Contributor</i>	<i>Amount</i>
Finland	2,200,000 €
Iceland	8,299 €
Norway	800,029 €
Russian Federation	10,000,000 €
Sweden	499,900 €
United States	683,010 €
NEFCO	1,350,000 €
Sami Parliament	12,987 €
Total, contributions	15,554,226 €

Table 2 below depicts the allocations from the PSI at the time of PCOM 16 (December 2021) and disbursements as of 1 August 2023. In the reporting period 2021- 1 August, 2023, the PSI have disbursed EUR 1.5 million (from MEUR 2.26 to MEUR 3.73). Majority of the projects that have received PSI financing have been proposed by Arctic Contaminants Action Program (ACAP) WG.

Table 2 – Overview of PSI Projects, Allocations, Disbursements

Row Labels	Project (Country)	PSI AC working groups	PSI Expert group	Disb/alloc	PSI Allocation	PSI Disbursed
1-On-going					4,485,900	1,347,014
PSI 01/18	PSI Communications (Circumpolar)	ACAP	(blank)	60 %	50,000	29,754
PSI 01/21	AFFF Phase Out in the Arctic ()	ACAP	Waste	29 %	345,900	100,200
PSI 02/19	Murmansk - Ozone Depleting Substances - Fisheries (Phase 2) (Russia)	ACAP	SLCP	30 %	4,000,000	1,217,060
PSI SAW	Small Allocation Window (SAW) (Circumpolar)	(blank)	(blank)	0 %	90,000	-
3-Pending					4,068,592	294,551

PSI 04/14	Dolgoshchellie Diesel Energy Conversion (BC) (Russia)	ACAP	SLCP	100 %	70,405	70,405
PSI 04/17	Dudinka Municipal Solid Waste - Arctic (Russia)	ACAP	Waste	100 %	50,000	50,000
PSI 05/17	Green Shipping-Russian Arctic Rivers (Russia)	ACAP	SLCP	100 %	58,000	58,000
PSI 06/17	PSI Evaluation (Circumpolar)	(blank)	(blank)	100 %	75,000	75,000
PSI 01/20 SAW	AFFF Phase Out in the Arctic - SAW (Circumpolar)	ACAP	Waste	100 %	10,000	10,000
Grand Total					10,645,207	3,732,279

If applicable, please describe in no more than one page your State's or Organization's future plans for contributing to the work of the Arctic Council's Working Groups, Task Forces, and/or Expert Groups. Please highlight intentions to contribute to specific projects and to collaborate with Permanent Participants.

Nefco's engagement with the Arctic Council, through its funding and PSI administration work for the period 2014 - 2023, is summarised in Table 2 above. The engagement addresses 26 projects, of which 15 have been completed.

The PSI operating mandate is until the end of 2023 while the Murmansk ODS project involves contractual obligations predicted to finish in 2024. Nefco does, at the writing of this report, not plan to exit the PSI but remain as Fund Manager of a frozen fund, till further notice.

If applicable, please describe in no more than one page your State's or Organization's contributions to other aspects of the Arctic Council and its goals not covered by the previous sections since the time of your most recent report, or in the previous two years.
